Harbinger Systems features in The Global Outsourcing 100 for Third Year Running

Honored in the annual listing of world's best outsourcing service providers by IAOP

PUNE, INDIA; REDMOND, WA, FEBRUARY 24, 2014:

Harbinger Systems, a global provider of software engineering services, announced today that it has been recognized in The 2014 Global Outsourcing 100 service providers listing by International Association of Outsourcing Professionals(IAOP). This is the third time in a row that Harbinger has received this prestigious recognition. The 2014 listing, a coveted symbol of outsourcing excellence, was announced at The Outsourcing World Summit held in Florida from February 17-19, 2014.

"Being honored in Global Outsourcing Top 100 for third consecutive year is definitely a very proud moment for us. We thank IAOP for recognizing Harbinger's consistent delivery that exceeds clients' expectations," said Shrikant Pattathil, Executive Vice President, Harbinger Systems. "During the past year we have successfully collaborated with our customers to go-to-market with new products and innovations. Our strategic focus is to build new frameworks and practices using emerging technologies like mobility, cloud and big data," he added.

Harbinger's extensive experience in addressing technology needs of Independent Software Vendors (ISVs) across various industries makes them a trusted partner. Their services span across enterprise software development, advanced testing services for software ISVs and solution consulting in eLearning. Harbinger is a customer-centric, technology-focused company that thrives on learning and applying next generation technologies quickly and effectively.

Currently in its ninth year, the Global Outsourcing 100 is an essential reference for companies seeking new and expanded relationships with the best companies in the industry. The companies are ranked on quality following a careful judged application process that examines four key criteria- size and growth, customer satisfaction, depth of competencies and management capabilities.

"At a time when there is a growing need to outsource, The Global Outsourcing 100 and The World's Best Outsourcing Advisors lists have become invaluable reference tools to help companies research service providers," said Debi Hamill, IAOP CEO. "The companies named on these lists and sub lists have

demonstrated their expertise following a rigorous, independently judged process and represent the top in the industry."

The 2014 Global Outsourcing 100 list with all of the sub-lists and ranking will be published in the special advertising feature produced by IAOP in the June 16 Fortune 500 issue of FORTUNE magazine.
