Harbinger Systems to Present at the DevLearn Conference 2014

Harbinger will conduct a session on 'The Internet of Things-Applications in eLearning', in DevLearn conference 2014. The session is slated for October 30 from 10:30 -11:30 PDT.

PUNE, INDIA; REDMOND, WA, OCTOBER 17, 2014:

Harbinger Systems, a global provider of software engineering services, will lead a session and exhibit at DevLearn 2014 Conference and Expo. DevLearn 2014 is an eLearning Guild Conference and Expo being held at Las Vegas, USA from October 29-31.

HARBINGER SYSTEMS IN DEVLEARN 2014

Harbinger Systems welcomes you to DevLearn conference- the most cutting-edge training and learning event in North America. Join us for an interactive session titled 'The Internet of Things-Applications in eLearning' on Thursday, October 30th from 10:30 AM -11:30 AM at Las Vegas, USA. This session is being led by Shrikant Pattathil, the Executive Vice President at Harbinger Systems.

In this session, delegates will explore how the Internet of Things can impact the world of eLearning. They will know more about specific examples of how IoT can enrich interactive learning, games-based learning, and on-demand learning to improve the overall learning experience. The examples will also showcase some real-time use cases of Kinect and Raspberry Pi based learning solutions. The session will take an inside look at the Internet of Things ecosystem and how the IoT key concepts apply in the context of eLearning. To know more about this session, please visit, DevLearn concurrent session page.

Connect with us at Booth #434 to see how we have helped technology startups, enterprises build collaborative, cost effective eLearning solutions with our eLearning and emerging technology service offerings.
