Harbinger Systems to Exhibit at Apps World North America 2015

Visit us at booth #806 for a first-hand experience of Harbinger's Hybrid Test Automation Framework that can save cost and reduce time to market

PUNE, INDIA; REDMOND, WA, MAY 7, 2015:

Harbinger Systems, a global provider of software engineering services, today announced that it will be exhibiting at Apps World North America - one of the largest conference focused on mobile app ecosystem - from May 12-13 at the Moscone Center West, San Francisco, CA.

The highlight of our booth will be the showcase of Harbinger's Hybrid Test Automation Framework. A unique mobile focused script-less automation suite that works across all platforms and devices - tablets, smart phones, desktops. The framework helps in maximizing the test coverage, increase quality, at a lesser cost. This results in quicker ROI on automation development, visit Harbinger Systems at booth #806 to learn more.

"We are very excited to participate in Apps World 2015. This is a great opportunity to interact with the industry and share our expertise in Mobility and IoT, especially Wearables in Healthcare space. We look forward to meet Technology Startups and Enterprises and explore how Harbinger can contribute in their growth", said Prashant Khambekar, SVP Business Development, Harbinger Systems.

Harbinger is a global company providing software technology services for independent software vendors and enterprises, with a specialization in product engineering. We have successful long-term partnerships with ISVs and have helped deliver over 200+ next generation products. Meet us at Apps World to know more about our special offer for Startups!

With an expected 350+ exhibitors, new niche workshops, 12 conference tracks and 12,000+ visitors, Apps World North America 2015 is a great event to participate. For more information, visit https://www.apps-world.net/northamerica/

ABOUT HARBINGER SYSTEMS

Harbinger Systems is a global company providing software technology services for independent software vendors and enterprises, with a specialization in product engineering. Since 1990, Harbinger has developed a strong customer base worldwide. Harbinger's customers are software product companies, including hi-tech startups in Silicon Valley, leading product companies in the US and large in-house IT organizations.

Harbinger Systems builds software solutions leveraging social, mobile, analytics, and cloud (SMAC) technologies for domains such as human capital management (HCM), healthcare, e-learning, and publishing. Harbinger Systems also uses emerging technologies like big data, OpenStack, and Internet of Things (IoT) to develop products for tech startups.

Recognized for software engineering services, Harbinger has won numerous honors and awards over the years. Deloitte's 'Technology Fast 500 Asia Pacific', 'The Global Services Top 100' IT Service Providers by Cybermedia and 'Super Star' in Annual Mobile Star Awards, to name a few. Harbinger Systems is ranked in 'The Global Outsourcing 100' listing by IAOP (International Association of Outsourcing Professionals) for the last four years in a row.

Harbinger Systems is a part of Harbinger Group. Harbinger Group is a leading global provider of innovative software products and services to companies in over 60 countries. For more information about Harbinger Systems, visit www.harbinger-systems.com
