

## Harbinger Systems to Exhibit at the Wearable Technology Show USA, 2015

Visit us at booth #128 for a first-hand experience of Harbinger's expertise in the wearable space

**PUNE, INDIA; REDMOND, WA, NOVEMBER 23, 2015:**

Harbinger welcomes you to the Wearable Technology Conference, being held from December 1- 2, 2015 at Santa Clara Convention Center, CA. Join us for a panel session on 'Medical Wearables' on December 1, 12.15pm-12.40pm. This session would throw light on the recent innovations and developments taking place in the medical wearables world.

Visit us at Booth #128 to learn more about initiatives by Harbinger in wearables, smart devices and IoT space. Witness the power of our healthcare product- a wearable + android app built for doctors and patients. Harbinger team shall demonstrate how doctors can push prescription reminders for their patients very easily by using an android app and patients on the other end can receive reminders on their PebbleTime watch. Furthermore, patients can notify their doctors when an urgent attention is needed.

The Wearable Technology Show, 2015 (WTS USA) will be attended by 1500+ delegates and be a host to around 20+ exhibitors based in and out of Silicon Valley and San Francisco Bay Area having in-depth knowledge on the IoT Landscape, Smart Devices and Wearable Technology. The two-day event will explore pioneering technologies widely used in Healthcare, Augmented Reality, Smart Textiles, Smart Watches, etc.

“The wearable healthcare market is expanding; medical, wellness and fitness- all streams are flourishing. At the Wearable Technology event it will be interesting to see how wearable technology and connected devices landscape is evolving. We look forward to interact with the industry veterans, product companies and exchange ideas. The simplicity offered by wearables makes it a compelling case for the near future,” said Prashant Khambekar, Senior Vice President Business Development, Harbinger Systems.

The WTS USA will be a home for new launches happening under the limelight of Wearable Ecosystem, it is the perfect platform to know the recent innovative developments taking place in this industry. Harbinger looks forward to communicate and interact with technology startups and enterprises having wearable technology as a forte.
