

## Harbinger Systems Showcases Healthcare Analytics and Provider Frameworks at HIMSS 2016

Leveraging next-gen technology to help healthcare ISVs build products enabling digital transformation. Meet us at HIMSS, booth #8450.

**PUNE, INDIA; REDMOND, WA, FEBRUARY 23, 2016**

[Harbinger Systems](#), a global provider of product engineering services, brings Healthcare Analytics and Provider Frameworks at the HIMSS 2016 Conference and Exhibition at Harbinger Booth #8450. The event is slated for Feb 29 to March 4, and is being held at the Sands Expo and Convention Center, Las Vegas, Nevada.

“Harbinger has extensive experience in building products around Healthcare Analytics for EHR and other enterprise health applications,” says Shrikant Pattathil, President, Harbinger Systems Inc. “As patient-centered care gains further impetus, we’ll see a surge of connected health, innovative products touching the lives of millions. Health intelligence fueled by powerful analytics will underpin the quality of care; delivering a better patient experience,” he added.

With over 25 years of product engineering experience, Harbinger works with ISVs providing healthcare technology products to Payers, Public Health, Medicare, Pharma and other healthcare segments. Harbinger has the healthcare domain knowledge and experience to build end-to-end products.

At HIMSS, Harbinger plans to showcase its expertise in Healthcare Analytics and Provider Frameworks. The booth highlights include demonstration of how the advanced data modeling techniques mastered by Harbinger, aid in analyzing the effectiveness of the drug and infact help predict the length of patient’s stay in the hospitals, in short, delivering better patient health outcomes. These healthcare intelligence data models also help in determining the cost of care in direct pay scenarios.

Attendees can gain insights into Harbinger’s expertise that can be leveraged by product companies for coming up with their provider network adequacy and performance assessment offerings within shortest time-window and lean product development budgets. In addition, Harbinger’s experience in healthcare IoT space will also be showcased.

You are invited to visit Harbinger at Booth #8450. To pre-book a meeting with Harbinger team to discover how Harbinger’s services can add value to you, you can write at [hsinfo@harbingergroup.com](mailto:hsinfo@harbingergroup.com). Harbinger looks forward to interact with product companies and industry experts.

The 2016 HIMSS Conference and Exhibition will be a host to 40,000+ health IT professionals, clinicians, executives and healthcare vendors across the globe. The conference will also conduct more than 300 educational programs, keynotes, thought leader sessions, roundtable discussion and e-sessions.

## **About Harbinger Systems**

Harbinger Systems is a global company providing software technology services for independent software vendors and enterprises, with a specialization in product engineering. Since 1990, Harbinger has developed a strong customer base worldwide.

Harbinger Systems builds software solutions leveraging social, mobile, analytics, and cloud (SMAC) technologies and IoT (Internet of Things) for domains such as healthcare, human capital management (HCM), eLearning, and publishing. Harbinger Systems also uses emerging technologies like Big-Data and OpenStack for tech startups. Harbinger Systems is ranked in The Global Outsourcing 100 listing by International Association of Outsourcing Professionals consecutively for last five years. Recently, Harbinger has been recognized in 2015 Global R&D Service Providers Rating – Product Engineering Services, by leading management consulting firm Zinnov.
