

A Webinar on  
**Apple Watch Apps in Action**  
June 10<sup>th</sup>, 2015

## Question and Answers

### **Q: What are the points to be considered for App rejections by Apple when developing for Apple Watch?**

Two rejection criteria specific to Apple Watch are:

- Apps that look similar to Apps bundled on iOS or Watch OS devices, including the App Store, iTunes Store, and iBooks Store, will be rejected
- Watch app whose primary function is telling time will be rejected

Rest all rejection criteria are similar to those for iPhone/iPad apps. Meaning, incase one integrates HealthKit with Apple Watch then guidelines and rejection criteria for HealthKit also stands for Apple watch app.

### **Q: WWDC is in progress yet, so is there anything new more which we can expect yet?**

All new features/enhancements are introduced in keynote on June 8 2015. Now only lab sessions for enhancements are going on and hence nothing more new will be coming as of now.

Here are some high level announcements for the Apple Watch made during WWDC 2015:

- Native apps for watch can be developed
- Access to Taptic engine & Digital crown
- More developer Features

To know more, please view the recording of the webinar. Link given below.

### **Q: What is the iOS version supported by Apple Watch?**

Apple Watch supports iOS 8.2 onwards.

## Harbinger Systems

**Q. When is the Watch OS2 expected? With the expected change in the architecture, apps will need to be redeveloped/updated for the new OS?**

Watch OS2 is expected in fall. With the change in architecture, yes apps should be updated for new OS2 architecture but existing apps will obviously run as is on the current OS as well.

**Q. Is the special offer still available to the webinar registrants?**

Yes, you can get 2 hours of free consultation to validate your Apple Watch app idea. Simply, write to us at [hsplinfo@harbingergroup.com](mailto:hsplinfo@harbingergroup.com) to avail this limited offer.

**Q. Will you post the recording or presentation slides of this webinar?**

Yes, you can view the recording and presentation slides of the webinar by visiting this link:
