

PRESS RELEASE

Integrating Systems of Records and Collaboration Tools – Our Lifelines

~ Live webinar on April 23, 2020 at 10:00 AM PST~

Pune, India, April 08, 2020: Productivity is the buzzword driving businesses these days, especially when employees have been asked to work from home. To implement large-scale remote working scenarios, HR products are required to function with enhanced competencies to accommodate the daily HR operations sans actual meetings. With this focus, Harbinger Systems is set to share insights on how to effectively integrate systems of record with systems of engagement. Adopting such an integration has an advantage of staying competitive within the HR tech space thanks to the agile and cost-effective approach that it offers.

If you have any questions on collaborating HRIS, LMS or other project management systems with different engagement platforms, join us for a live webinar to know how this integration can be done successfully. You can bring in questions related to organization-specific scenarios and workflows for a thorough understanding.

This webinar will update you on:

- Emerging integration requirements in HR Tech due to impact of COVID-19
- Multiple integration approaches and examples
- How to create a checklist for your integration workflows

Speakers:

- Dr. Vikas Joshi (Chairman and MD, Harbinger Group)
- Maheshkumar Kharade (AGM Technology, Harbinger Systems)
